Creating an Interactive PowerPoint Slide Using TurningPoint Audience Response

1.) Open PowerPoint using the TurningPoint 2008 icon on your desktop. Opening PowerPoint this way allows the TurningPoint toolbar to appear in PowerPoint.

2.) Locate the TurningPoint toolbar on the top portion (ribbon) of your PowerPoint screen.

3.) From the TurningPoint Toolbar, click “Insert Slide” and select a slide type from the dropdown list. An interactive will then be inserted into your presentation. We will choose the \textbf{Generic Slides > 4 Answer} option for the purposes of this job aid.
4.) Change the wording of the slide accordingly. In this example, change the “Please make your selection...” text to the question you wish to ask the audience and each numbered choice to a potential answer to the question. Your finished slide should look like the one below.

Before

Please make your selection...

1. Choice One
2. Choice Two
3. Choice Three
4. Choice Four

After

In what year was Vanderbilt University founded?

1. 1904
2. 1890
3. 1873
4. 1759

5.) Congratulations! You’ve created an interactive slide. Repeat steps 3 and 4 to add additional slides in the same presentation.
