

NASHVILLE FRONTOTEMPORAL
DEMENTIA SUPPORT GROUP

Invites you to an
evening of
education and
discussion on FTD

Featuring Bruce L. Miller, MD

Dr. Miller holds a distinguished professorship in Neurology at the University of California, San Francisco (UCSF). He directs the busy UCSF dementia center clinical evaluations and oversees the clinical and research programs at the Memory and Aging Center.

Dr. Miller is a behavioral neurologist and is the principal investigator of the NIH- sponsored Alzheimer's Disease Research Program (ADRC) and program project on FTD.
