SALLY E. WENZEL, M.D.

PRECISION MEDICINE AND ASTHMA: IS THE VISION MEETING THE REALITY?

NOVEMBER 9, 2017
4:00 P.M.
208 LIGHT HALL

Upcoming Discovery Lecture:

ROGER LEWIS, M.D., PH.D.
Professor of Medicine
Professor and Chair, Department of Emergency Medicine at Harbor-UCLA Medical Center
Senior Medical Scientist at Berry Consultants

January 4, 2018
208 Light Hall / 4:00 P.M.
Dr. Sally Wenzel completed her MD degree at the University of Florida. Following her residency in internal medicine at Wake Forest University and her fellowship in pulmonary and critical care medicine at Virginia Commonwealth University, she spent 19 years at National Jewish Health and the University of Colorado before moving to the University of Pittsburgh. She received the Elizabeth Rich Award for her role in promoting women in science, the ATS Award for Scientific Achievement, the ATS Foundation Breathing for Life Award, and the ERS President’s Award. She is currently Director of the University of Pittsburgh Asthma Institute at UPMC, holds the UPMC chair in Translational Airway Biology, and is Subsection Chief of Allergy.

Dr. Wenzel has served as Deputy Editor for the American Journal of Respiratory and Critical Care Medicine and is a frequent reviewer for the New England Journal of Medicine and other publications. Dr. Wenzel has a passion for understanding and improving the treatment of asthma, in particular severe asthma. She has promoted severe asthma as a complex disease and her studies of asthma phenotypes have led the field in understanding these complexities. Dr. Wenzel has developed a strong translational program to study the pathobiology of severe asthma and its phenotypes, modeling ex vivo findings in vitro, using primary human airway cells from patients and controls.
