Understanding Healthcare for Adults with Autism

Share your perspectives on providing healthcare for adults with autism spectrum disorder (ASD)

- You will be asked to participate in a focus group to share your experiences and perspectives on providing healthcare for adults with ASD.
- You will also be asked to fill out a few brief surveys.
- This should take between 1½ to 2 hours.
- You will be receive a $50 gift card for participation.

What we learn from you will help us design a new program to support primary care physicians and other providers in caring for adults with ASD.

Who can participate?

- **Primary care providers** (e.g., family medicine, internal medicine, med-peds, advance practice nursing) in current practice
- **Patient population** that includes adults
