Laboratory Animal Medicine Externship Opportunity

The Division of Comparative Medicine offers current veterinary students a two to six (2-6) week in-depth laboratory animal medicine experience in an active university-hospital based biomedical research environment. The focus of the externship can be tailored to the student’s interests and can be scheduled at any time of the year. Space is available on a first-come, first-served basis.

If you would like to apply, please provide us with the following documents:

1. A copy of your most recent Curriculum Vita.
2. A letter of intent which includes a focused area of interest or your goals for the experience (species specific/ clinical, or hypothesis driven project, etc.); proposed dates for, and duration of, the externship.
3. A letter of good standing from your institution’s Office of Academic Affairs.
4. A letter of reference from faculty/ veterinary colleague who is knowledgeable about your professional experience.

Should you be accepted for an externship at Vanderbilt, there will be additional requirements for Vanderbilt University’s Occupational Health and Safety program.

Please note that Vanderbilt does not have any funding available for this externship program and all travel and housing will be the responsibility of the extern.
